I liked the exhibitionist side of the wife. She's strong, cute, and will become pervert not too fast. Well written!0 of 0 people found the following review helpful. 1950 housewife Jane talks to her husband in an attempt to improve her marriage, only to find out she's been unknowingly neglecting her wifely duties. SHE knew she was supposed to cook and clean, but until now no one told her about fellatio!The strong, independent woman reluctantly agrees, and over the course of several sexual adventures has oral sex with her husband in their den, their car, at a public beach and even right under their neighbor's nose. Embarrassed and ashamed at first, she initially agrees out of a sense of obligation, but eventually realizes that she can give her husband what he needs, and ask for the same in return.It's a highly erotic tale of a woman learning the importance of pleasing her man, while still maintaining her own self respect. Jane becomes submissive, but ultimately gets what she wants from her marriage.
